

Application No.: 09/972124Case No.: 56764US002

a second layer comprising a fluid transport substrate, the second layer having a first major surface and a second major surface opposite the first major surface, the first major surface of the second layer being in contact with the second major surface of the first layer;

a third layer comprising a fluid transportable ink, the third layer having a first major surface and a second major surface, the first major surface being in contact with the second major surface of the second layer; and

an adhesive layer in contact with the second major surface of the third layer.

7. (Twice Amended) The adhesive article of claim 1 having a hole through the first layer, exposing the second layer.

8. (Twice Amended) The adhesive article of claim 1 having a hole through the first and second layers, exposing the third layer.

21. (Twice Amended) A label comprising  
a first layer comprising a transparent film, the first layer having a first major surface and a second major surface opposite the first major surface;  
a second layer comprising a fluid transport substrate, the second layer having a first major surface and a second major surface opposite the first major surface, the first major surface of the second layer being in contact with the second major surface of the first layer;  
a third layer comprising a fluid transportable ink, the third layer having a first major surface and a second major surface, the first major surface being in contact with the second major surface of the second layer;  
an adhesive layer in contact with the second major surface of the third layer; and  
a printed layer on the first major surface of the first layer.
